Like "Artemus Ward," they saw in polygamy a broadfercel and Open oring and fall of ludi erus positions, but overlooked the stubborn fact that it was a rapidly inoreasing power, antagonistic in every respect to the spirit and purpose of our Republicanism. But that time has passed. The farce has been superceded by . the tragedy; and a few peeps behind the scenes have disclosed the whole dark plot and shown the nation what a monstrous system of traud and iniquity it has countenanced and encouraged by 1te suicidal course of non-interference.

Merely as a social evil, restricted in its operations to a single Territory, polygamy is in all respects bad enough to justify the prohibitory legislation of Congress which gave to our statutes the Anti-Polygamy Act. But viewed as a national evil-and such it certainly isit at once assumes its true proportions, and challenges the attention and criticism of every citizen of the Republic. For nearly three years we have discussed its merits-or, rather, demerits-and have kept constantly before the people of this Territory the, to them, all important consideration that, however dilatory the Gogernment might seem for the time being, it must eventually enselves in direct antagonism to the su- English Admiral, notified the Spanish preme power of the land by entering Commodore that a bombardment of the counseled otherwise; and, governed by that counsel, hundreds of the people have transgressed the statutes, and now find themselves debarred from the privilege of citizenship, branded as criminals. and outlawed from the nation whose power they so persistently ridiculed and defied. Washington, April 30. The Senate passed a bill authorizing the construction of railroad bridges across the Mississippi river at Hannibal, Mo., Quincy, III. and Burlington, Iowa. The Poet Office Appropriation Bill being taken up, Trumbull moved an amendment that no person exercising the duties of any office which by law is required to be filled by the advice and consent of the Senate, mail, before confirmation by the Senate, receive any salary for compensation for services unless the services the services the services unless the services the servi he be compensation for services unless to be commissioned by the President to fill a vacancy which has, during the recess of Congress and since its adjournment, happened by death, resignation or expiration of term,

Johnson opposed it as an infringement on the appointing power of the President.

Howe said that Postmaster-General Registal, who is cheirman of a Johnson Chro, had remarked that no man should est President Johnson's bread and butter who did not support his policy. He
(Howe) did not agree that public patronage was defined to be the instrument for dragooning the people into the
support of any particular line of policy.
Trumbull said that in his amendment

Stevens also offered a substitute for the bill introduced by him, Dec. 20th, as to the trouble of pensions and pay for damage done loyal men by the rebel government and rebel raiders, and to enforce the confiscation of the enemy's property. The substitute forfeits to the United States all the public lands belonging to the late rebellious States and United States all the public lands belonging to the late rebellious States, and

The East India Telegraph Company of
New York has appointed Dr. D. J. MoGowan to proceed to Clima as a commis-

much shorter and simpler programme is well known, but we may accept the report as agreed upon in the Committee as a Union party's plan.

The Herald asys the plan is ingeniously contrived, and it is considerably milder than anything hitherto eminating from the Committee. It may be unnecessary in some things, superfluous in others and unfair in its continued exclusion of the Southern States, after having on their part fulfilled the conditions of the administration, charged with discretionary power over the whole subject, but we have only now to await the issue before Congress.

Congress.

The Times says, the scheme would seem sweeping enough to satisfy most exacting radical, it could hardly be much more a weeping, Indeed, unless it provided for the wholesale confiscation and exter-mination or banishment of the Southern people as a plan of purification and cona burlesque, it might be styled a farce were the country not in the midst of a tion would be "a plan to prolong the in-definite exclusion of the fouth from Congress by imposing conditions to which

the Southern people never will submit." The World says, if the scheme would not have been more apparent had it been labelled "an infallable plan for preventing the South from voting in the next presidential election."

A Washington special says the plan meets the entire sanction of a majority in Congress, and it is not expected or anticipated that any material amendment will be carried. The friends of the President gave assurances last night that if Congress carries out the scheme in good faith it will receive their full approval and co-operation. Neither of his Washington organs, it is stated, will commit themselves on the proposition-

The Herald's special says that every-where the proposition is looked upon as very diminutive result to repay the ong labor of the mountain. Common rumor attributes its author-

#### MONTANA ITEMS.

The following items are from the Montana Post of the 21st ult:

The Missouri river boats are crowded with passengers. This is the beginning of the spring emigration to Montana.

W. Berkins is on his way to the Indian country, full of hostile feeling toward the red-skins, who gobbled his train. Operations of this kind come under the head of "killing no murder."

On Thursday afternoon a pack train started for Elk Creek, consisting of ten heavily loaded cayuses, carrying "grub and fixings" for the honest minera.—Preparations for trade are everywhere visible, and the streets begin to assume

The Nelson Mining Company got up steam at the Hotel de Murphy on Thursday, and both engines worked admirably. A large number of citizens witnessed the first performances of the hose on a bank of refuse dirt, and all seemed pleased with the highly effective action of the stream directed upon it from the nozzle. The minera are as busy as bees in July, all along the gulch. The gold is as yellow as over, and just as tempting.

A dry guich has just been discovered between Bivens's and Harris's guiches, which bids fair to be (tich. It was discovered by Mr. Huffaker, of Bagdad, in Bivens' guich. The gold is coarse, weighing from fifty cents to \$2.90 to the piece. The grst day, Mr. H panned out \$15. Quite as excitement exists in that vicinity. It is proposed to extend the Ramshorn ditch, so as to bring water into the guich, and this will be done as soon as the frost gets out of the as soon as the drost gets out of the ground sufficiently.

Oliver & Co., staging firm, have remails from Bridger to Hell's Gate, via
Virginia City Silver Bow and Deer
Lodge. Their other contract is from
Virginia City to Helena.

Philip Berliner's train of wagons rolled out last week for Salt Lake City; Philip Link's train followed suit; Jeffry's and Watkin's train of twelve wagons also headed towards the City of Waters, and Grim's wagons loaded on Tuesday last for the new diggings at Bear Gulch. First on the list of Spring arrivals came a train of some too or twelve wagons from Salt Lake, owned by divers and sandry proprietors, and laden with produce; they arrived safe and sound at the end of last week. Here we beg respectfully to terminate our chronicle, for it would shortly take one side of the Post to keep track of the moties crowd now through like the ways of a fleed tide, by every pass and canon, to Montana, the februing Ochir of the 19th century.

We and the lollowing report in the Judge decides that as holl marriage had been contracted, no divorce could be

The alleged smarring was contracted at Utah, in the territories of the United States of America, and the petitioner and the respondent both professed the Mermon faith at the time. committing depredations in that vicini-and abandoned that faith, but the res-Correction.—In Monday's issue we mentioned that Messrs. substantially all the Christian world over. Our whole law of marriage assumes this; and it is important to ob-serve that we regard it as a wholly dif-ferent thing—a different status from Turkish or other marriage visions infiterday for Montana. The Judge has made hosts of friends during his short stay in the "City of the Saints," who wish him anccess wherever he goes.

The Judge has del nations, because we clearly should never recognize the plurality of wives and consequent validity of second marriages, which second marriages the laws of those countries authorize and validate. This cannot be put on any rational ground, except our holding the infiwhich these courts are acquainted with and know how to deal with, has been validly contracted in the other country where the parties professed to bind them-

Inasmuch as the marriage in band was not according to his view legally con-tracted, he could not grant the prayer of the petitioner for a divorce. He ad-
